Best Sellers Rank: #7,478 in Books (See Top 100 in Books) #13 inÂ Books > Business & Money > Investing > Stocks #31 inÂ Books > Business & Money > Investing > Introduction

Customer Reviews

Worth the buy! I am on page 26/27 and it just arrived about an hour ago. I like the simplicity of the knowledge and respect the author writes with, but it's in depth to the point where it should give me a full run down on what I need to know. I gave it 4 stars because when it arrived with the other things in the box a section of pages got folded over :/ But I do love that it's a current 2016 edition.

Between reading this book and having the WSJ next to me I was able to cross reference the applications in the book to the newspaper. I have made a 10% gain in 3 months since reading this book. Very easy to understand- over simplified which is great for new traders.

Its a book, its about investing on a basic level. If you want it get it. If you do not want to read about stocks then this is not for you.

Good for the husband. He read and helped him a lot as a newbie stock person. We are not millionaires yet though... ! :P

Excellent!
