Biochemistry: Concepts And Connections Plus MasteringChemistry With EText -- Access Card Package

Synopsis

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide. A Student can use the URL and phone number below to help answer their questions: <http://247pearsoned.custhelp.com/app/home>

800-677-6337 Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

For one or two semester biochemistry courses (science majors). This package includes MasteringChemistry®. A A highly visual, precise and fresh approach to guide today's mixed-science majors to a deeper understanding of biochemistry Biochemistry: Concepts and Connections engages students in the rapidly evolving field of biochemistry, better preparing them for the challenges of 21st century science through quantitative reasoning skills and a rich, chemical perspective on biological processes. A A This concise first edition teaches mixed-science-majors the chemical logic underlying the mechanisms, pathways, and processes in living cells through groundbreaking biochemical art and a clear narrative that illustrates biochemistry's relation to all other life sciences. Integration of biochemistry's experimental underpinnings alongside the presentation of modern techniques encourages students to appreciate and consider how their understanding of biochemistry can and will contribute to solving problems in medicine, agricultural sciences, environmental sciences, and forensics. A The text is fully integrated with MasteringChemistry to provide support for students before, during, and after class. Highlights include interactive animations and tutorials based on the textbook's biochemical art program and Foundation Figures to help students visualize complex processes, apply, and test conceptual understanding as well as quantitative reasoning. A A Superior support beyond the classroom with MasteringChemistry MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive prepared by assigning interaction with relevant biochemical concepts before class, and encourage critical thinking, visualization, and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class by interacting with biochemistry animations, problem sets, and tutorial assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded

assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. Â Mastering brings learning full circle by continuously adapting to each student and making learning more personal than everâ "before, during, and after class. Customer Reviews

It's no Klein Organic Chemistry text but it does the job for a one semester course. Minute mistakes and lack of clarification here and there but lots of diagrams and illustrations to elucidate content. Be aware that my entire class had issues with the Mastering Chemistry code, requiring sorting out through customer service but did get eventual access to the online content. It may be worth it to buy used (sans code) and buy the code separately direct from Pearson's website if your professor requires it.

The book was brand new and arrived quickly with additional resources as promised.

Great! Had both the hard cover book and mastering biochem
